Report of Workshop on social surfing

On 25th September 2015

The NSS Volunteers of Jeppiaar Institute of Technology attended a Workshop on SOCIAL SURFING in Rajiv Gandhi National Institute of Youth Development, Sriperumbudur. The workshop was conducted in a collaboration with Centre for Social Research, Delhi. A vibrant set of volunteers from Centre for Social Research handled the session for around 80 students from Jeppiaar Institute of Technology and Rajiv Gandhi National Institute of Youth Development. The session commenced at 10.00 AM and concluded at 3.30PM. It began with the Director of Rajiv Gandhi National Institute of Youth Development giving the presidential address. It was a pot-pourri of brainstorming ideas on social campaigns, interactive sessions with ice-breaking activities, and information on social media security. The issues of counter speech, trolls on social media, security and privacy controls on these social networking sites was explained in detail. In the social campaign session each team was heterogeneously mixed up and had to present the working stages of hosting a campaign. The best campaign would be selected by Centre for Social Research, Delhi to be implemented as a real time campaign. Issues like student suicides, youth empowerment, gender sensitivity, LGBT awareness and clean India were widely discussed on the platform with a thorough plan by teams. The event ended with a fruitful networking session with CSR team and RGNIYD students.

REPORT ON ONE DAY WORKSHOP ON SOCIAL SURFING-18th AUGUST'2016

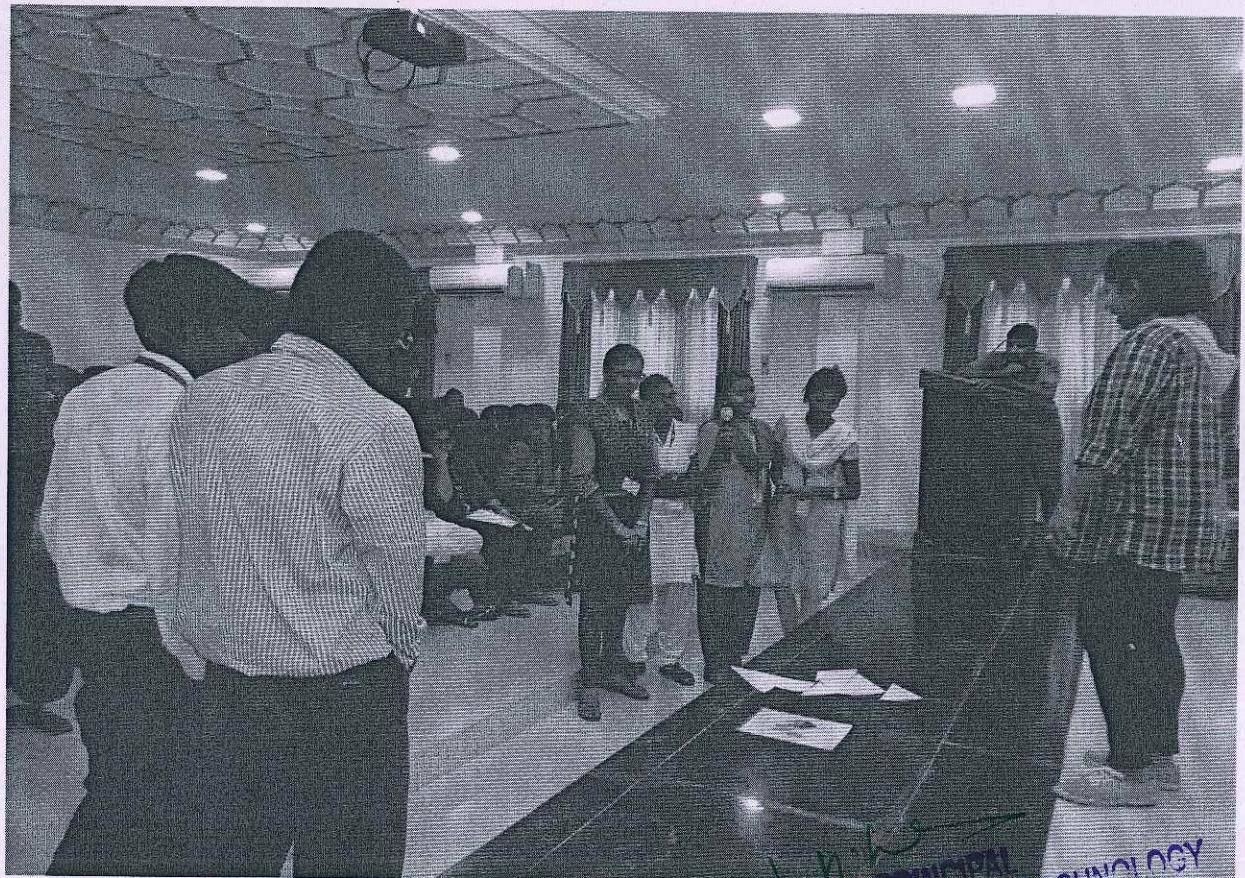

The session began by discussing the activities of phase 1 by the social surfing team and it continued to the topic social media, its advantages and disadvantages. It was a very interactive session and students gained knowledge about that platform. Since facebook was preferred by many students they gave a brief introduction and the privacy options in facebook. It helped us to know that there are settings existing to protect our personal account from being hacked by a third person. From this session the students came to know what are the do's and dont's of an individual in a social platform. They conducted games which were a practical example that made us realize the role of an individual in social media and they also shared their personal experience which was an additional and more informative to the topic. On the whole it was a very informative and interactive session by the team of social surfing from the centre for social research.
